

The best plan for the future is one that begins early.

You can help students who are 16 to 18 years of age with developmental disabilities prepare for the future in Adult Developmental Services in Toronto by:

- ☑ encouraging the individual and/or family to connect with Developmental Services Ontario Toronto Region by calling 1-855-DS-ADULT (1-855-372-3858).
- ☑ ensuring the individual has copies of their psychological assessment reports prior to leaving school.
- ☑ helping connect the individual to volunteering, mentoring and post secondary education programs.
- ☑ visiting our website at www.dsotoronto.ca to learn more about adult developmental services and supports in Toronto.

By working together we can support social inclusion for adults with developmental disabilities.
